PROFILE   I am a second-year data science student and a student ambassador at Leeds Beckett University. With a strong foundation in R, Python, SQL, and Excel, I'm passionate about using data to uncover insights and make informed decisions. I've worked on various projects and coursework that have honed my analytical and problem-solving skills. As a student ambassador, I've had the opportunity w lead and organise events, fostering a sense of community within the university. I'm seeking an internship for placement year to develop skills further and gain real-world experience. I am excited about data analysis possibilities and eager to contribute.
